Join a Patient and Family Advisory Council

Patients as Partners in Improving Care

Client and Family
Centred Care

What is a PFAC?

A Patient and Family Advisory Council (PFAC) is a group that meets monthly for collaboration between staff and advisors on program decisions to improve patient and family centred care.

It is not a support group, grievance committee, staff meeting, or presentation forum.

Advisory councils:

- Identify opportunities for improving the patient and family experience
- Advise on policies and practices to support patient and family engagement
- Recommend how to better measure, quantify, and evaluate patient and family engagement

Advisor Role

- Do you want to use your experiences for change?
- Are you interested in partnering with staff and other Advisors?
- Do you want to be involved in making key decisions in health programs?

Join a Patient and Family Advisory Council!

Roles of council members may include:

- Serving as a sounding board for new initiatives
- Generating idea-sharing best practices
- Planning and evaluating programs
- Providing input on healthcare policies, programs, and practices

Be the CHANGE you want to see!
